# Naim Mu-so QB 2nd Generation

Mu-so Qb is a compact wireless music system from the engineers behind the award-winning Mu-so. Controlled by a powerful audio brain, Mu-so Qb is alive with custom features all designed in our audio laboratories in England. Simple to control and easy to connect, Mu-so Qb generates a staggering 300 watts to unmask your music with a sound that defies size

## Features

Unleash your digital music, wherever it's stored. Connect Mu-so Qb to your network via Ethernet or Wi-Fi to open up a world of music. Wirelessly stream in breathtaking high-resolution via UPnP™ and AirPlay or browse and play millions of songs through Spotify Connect, TIDAL or Internet Radio.

High quality Bluetooth (aptX) audio connectivity, a USB input for charging and playback of smart phones, tablets and MP3 players, a 3.5mm analogue input and a digital input for TVs, set-top boxes and games consoles makes Mu-so Qb a complete music centre.
